

# CITY LIFE

AT CASINO ROAD

## ABOUT CITY LIFE

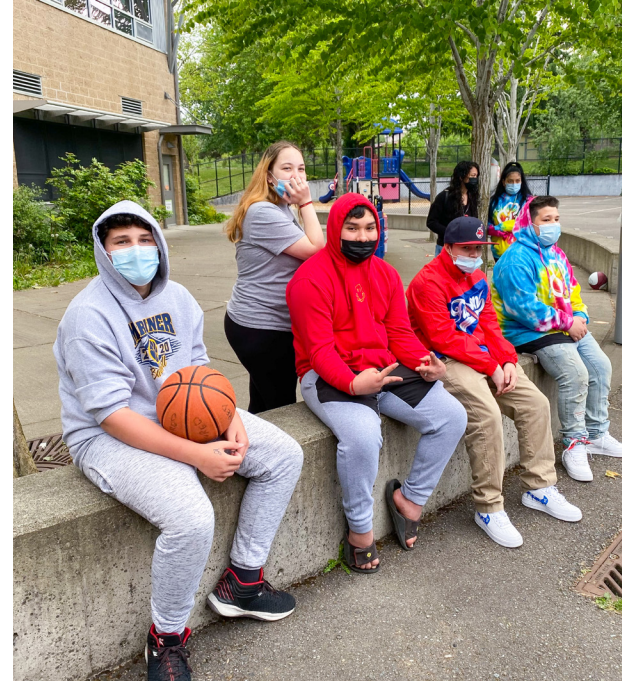

City Life is an effective ministry model to transform the lives of under-resourced youth, their families and the communities in which they live. We intentionally partner with local churches and other like-minded organizations to minister to the “whole” person in under-resourced communities and help them discover their God-given potential.

This means that in addition to our after school clubs where we’re able to build a positive community and share the gospel, we also provide intentional academic support for kids who are struggling in school through regular tutoring and mentoring.
